Note

The Maaspoort is a theatre where many events and performances take place.

It is therefore not possible to make a standard technical list with the material that is permanently available.

A technical set is often put together for large-scale events by combining our equipment from the various stages.

Therefore make sure that you are always in contact with our technical department. Depending on your wishes, they will hire any additional materials required or put together a package from different stages.

Sizes stages

Hela stage – permanent 14 x 6 (average) x 1 m

Frans Boermans stage – permanent 12 x 8 x 1 m – sidestage 8 x 4 x 1m (stage right)

Piet Kingma stage – permanent 12 x 8 (no height-adjustable stage)
